

Dog Costume Sizing Guide

Sizing Guide:

Back: Measure length of pet's back from the base of the neck to the base of the tail. See below for estimating by breed.

Neck: Measure the circumference of pet's neck for a snug fit. No need to add inches as you would with a collar.

Chest/Girth: Measure girth around the broadest part of the chest and add 2".

Note: If the dog has a stout build, select one size larger.

Size	Neck	Chest	Length
X-Small	8"-13"	12"-14"	8"
Small	9"-14"	16"-20"	12"
Medium	10"-16"	20"-26"	16"
Large	13"-24"	25"-32"	20"
X-Large	18"-30"	30"-38"	24"
